- Each cells and batteries have been manufactured under a quality management of each test In the UN Manual of tests and criteria, Part III, subsection 38.3
- This package does not contain waste Lithium batteries and lithium batteries being shipped For recycling or disposal, and does not contain any recalled and/or defective batteries.
- Cells and batteries have been protected so as to prevent short circuits. This includes protection against contact with conductive materials within the same packaging that could lead to a short circuit
- The Equipments containing the cells or batteries have been secured against movement within the outer packaging and it has been packed so as to prevent accidental operation during air transport.

For more information about the batteries contained in this shipment, call the following telephone number.
